**NWMS COMMUNITY PROFILING
NOVEMBER 2002
REGIONAL SUMMARY**

ETHNIC MINORITIES

- Ethnic minority households are most prominent in urban areas.
- High ethnic minority populations are found in the Greater Manchester area (which accounts for 7 of the 13 LAs with a higher than average percentage of ethnic minorities). The remaining five LAs with above average levels of ethnic minority households all located in either East Lancashire or Merseyside
- Rural areas featured a very low number of ethnic minority households. Cumbria LAs consistently featured as the LAs with lowest ethnic minority population

DISABLED

- Number of Disability Allowance Claimants is most prominent in urban areas and particularly Greater Merseyside (Local Authorities above regional average include Knowsley, Liverpool, St Helens, Salford, Wirral, and Sefton).
- Knowsley displayed the highest Disability Living Allowance claimant count, almost double the regional average.
- Barrow-in-Furness also displayed a high claimant count for Disability Allowance and the highest for Attendance Allowance
- The lowest levels of Disability Allowance Claimants and Attendance Allowance Claimants were consistently found in Eden.

SKILLS AND LEARNING

- Poor numeracy and literacy skills were more prominent in the urban areas of the North West.
- Knowsley displayed the highest levels of poor literacy and poor numeracy.
- The North West, as a whole, has higher levels of poor literacy and numeracy than the UK average.
- The number of permanent exclusions from school was higher in the inner city areas (top three were Liverpool, Salford, and Manchester)
- Participation of 16 yr olds in education was seen to be higher in LEAs in Cumbria and Cheshire
- At Key Stage 2, the North West average was in line with the England average. Performance was mixed across the sub-regions, with the highest performers being Warrington, Bury, and Cheshire Local Education Authorities

SOCIALLY EXCLUDED

- The North West displayed 8 Local Authorities within the 20 most deprived districts in England.
- Liverpool, Knowsley, Manchester, and Wirral were all in the ranked 10 most deprived wards in England.
- Only 6 Local Authority in North West areas featured within the 100 least deprived districts (Ribble Valley, Congleton, South Lakeland, Eden, Macclesfield, and Fylde)
- Unemployment (Claimant Count) was more prominent in urban areas with a focus on Merseyside LA (Knowsley, Liverpool, Wirral, St Helens being the areas with the highest unemployment claimant count)
- Only one district in the North West displayed 100% of wards with rural classification (Eden). 8 districts, however, had no wards recognised as rural.

<i>Source: Office of National Statistics, for DETR</i>		
<i>Ranked by: Local Concentration Rank</i>		
<i>Notes: The Indices of Deprivation have been constructed by the Index Team at Oxford University for the DETR. Local concentration is the population of a Local Authority area weighted average of the ranks of a districts most deprived wards that contain exactly 10% of the districts population. Local concentration attempts to identify 'hot spots' of deprivation. No statistical comparisons can be made at a national level. The district with the rank of 1 is the most deprived, and 345 the least deprived..</i>

NWMS COMMUNITY PROFILING NOVEMBER 2002 SALFORD SUMMARY

ETHNIC MINORITIES

- Four Salford wards display higher than (regional) average percentages of ethnic minority households (Ordsall, Pendleton, Pendlebury, Blackfriars)
- Salford wards seemed not to have a great prominence of Black communities as compared to the national and regional average
- Salford seemed only to display higher levels of ethnicity than the national average in the 'other ethnic minority group' category

DISABLED

- Only 4 wards within Salford were lower than the regional average in claiming Disability Allowance.
- Little Hulton ward displayed more than twice as many Disability Allowance Claimants than the regional average

SKILLS AND LEARNING

- 16 out of the 20 wards in Salford showed above average levels of poor literacy, the exceptions were Clarendon, Walkden South, Swinton South, and Worsley and Boothstown.
- Little Hulton ward displayed the highest level of total poor literacy and numeracy, by a considerable margin.
- Only 5 wards within Salford achieved the national educational target of reaching level 4 score and above in Key Stage 2

SOCIALLY EXCLUDED

- 10 out of the 19 wards within Salford were ranked in the 1,000 most deprived ward bracket (out of 8,414 wards)
- No wards within Salford were in the ranked 100 most deprived wards

NOVEMBER 2002
KNOWSLEY SUMMARY**

ETHNIC MINORITIES

- Knowsley has below national average levels of ethnic minority households. All wards in Knowsley were below the national average for ethnic minority households
- Halewood West ward displayed the highest concentration of ethnic minority households

DISABLED

- 17 out of the 22 wards in Knowsley had more than double the regional average for disability claimants
- Only one ward in Knowsley (Halewood East) had a Claimant Count below that of the regional average

SKILLS AND LEARNING

- 19 out of the 22 wards within Knowsley displayed above national average levels of total poor numeracy.
- 9 wards within Knowsley displayed more than twice the national average for very low literacy levels
- 5 wards within Knowsley displayed more than three times the national average for very low numeracy levels (Princess, Longview, Kirkby Central, Halewood Farm South, and Cantril Farm)
- No wards within Knowsley reached the national educational target of achieving level 4 or above score within Key Stage 2

SOCIALLY EXCLUDED

- 7 wards within Knowsley were ranked within the 100 most deprived wards (out of 8,414 wards).
